

Interested in learning how an idea is developed into a mobile app by working with professionals? Interested in hardware and/or software? Then this completely **free** event is for you.

CIE/USA-Seattle (Chinese Institute of Engineers Seattle Chapter) and AT&T APCA are working with the AT&T Developer Program and Seattle Interactive Conference to host a Hackathon for high school students. The event will allow high school students to learn and work with professional developers on wearable and Mobile2Mobile technologies. No prior experience is required. Experts from AT&T, ARM, Cypress, Plantronics and Microsoft will be on site to help.

Come to learn and to meet new people – students and professionals alike!

## Date and Location

Oct. 26 (Saturday) 9:15 AM – Oct. 27<sup>th</sup> (Sunday) 6PM.

REACTOR, 2820 Elliott Ave at Broad St, Seattle, WA 98121

## Detailed Event Program

Note: The student session start half an hour earlier than the session for professionals.

### SATURDAY

- 9:15AM – 9:30AM Saturday – Students to sign in at CIE/ APCA desk.
- 9:30AM – 10AM Saturday – Student briefing with event sanseis and staff.
- 10AM - 4PM Saturday - Kickoff event with networking and team forming. This leads into idea pitching and team formation. There will also be an address from Cypress Semiconductor, with instruction help from their team.

- 1PM - 2PM Mobile Food Truck, with lunch provided by Cobalt.
- 2PM - Initial Pitch on Saturday - Verbal only - you pitch your idea and we make sure it is unique and tech is solid. We'll then align you with Dev resources.
- 5PM Dinner provided by Microsoft.
- 6PM - Saturday Evening - 2nd round of idea refinement. We'll continue to work with you and your team to refine your concept.
- 12AM - Saturday Evening - End of the night. Go home, get some rest and come back the next day refreshed!

## **SUNDAY**

- 10AM Panera Bread Breakfast items will be provided by GreenQloud.
- 10AM - 4PM Sunday - The last day of fun continues with the hackathon going full steam ahead. Work with the teams that you formed the night before to produce your app.
- 4PM - Sunday Afternoon - Time to formally pitch your concept to our team. Pitches start promptly at 4PM and are limited to three (3) minutes per team. No power points. We will select a group of five finalists from here.
